

## WELCOME REMARKS

The organizing committee has great pleasure in inviting you to Bandung to attend The 3<sup>rd</sup> ITB International Geothermal Workshop 2014. Following the success of the last two workshops have brought us to the continuation and extension of the event in this year and the following years.

This year event, despite presenting the continuation of participation of ITB Master Degree Program respective partners, i.e.: PT. Pertamina Geothermal Energy, Star Energy, Chevron, Supreme Energy, USAID, Kyushu University, GFZ – Postdam, National Geological Agency, various universities in Indonesia and others, will also presenting new partner in collaboration such as West Java Geothermal Centre of Excellence, University of Southern California USA, ITC faculty of Twente University Netherlands, Mindoro Emerging Power of the Philippines and many others. They will speak about the current innovation and creativity on the geothermal exploration, exploitation and development not only for the geothermal resources but also for the human resources that support the acceleration geothermal development.

This year theme “*Encouraging Innovation and Creativity by Exploring Human Resources Potential and Skills to Gear-Up Geothermal Energy Development,*” will bring new information about current research, innovation and exploration results in some frontier area of studies, in particular for Indonesian Geothermal Communities. Such results include engineering research and exploration for geothermal low-medium enthalpy apart from advance techniques in developing high enthalpy geothermal system.

We invite you to join our informative and exciting program in this 3<sup>rd</sup> workshop which includes pre-workshop courses and trainings, plenary sessions, technical paper presentations, mid-workshop courses and geothermal field camp and field trip.

## ABOUT ITB GEOTHERMAL WORKSHOP

The ITB Geothermal Workshop is held annually as the premier agenda of the ITB Master Degree Program to take part in the development of geothermal energy worldwide and Indonesia's Geothermal Development in particular. We expect that participants will benefit these opportunities from the programs provided during this event:

- Exchange of views, ideas, knowledge and experience on researches, knowledge, and the latest technologies of geothermal developments by bringing together scientist, engineers, academicians, experts and industrial stakeholders involved in geothermal studies and developments.
- Network and explore possible cooperation, partnerships, and business relationships with experts in the field of Geothermal Energy development.
- Enable prompt and open reporting of annual progress in accelerating geothermal development in Indonesia.

This year, ITB Master Degree Program will host the Geothermal Workshop from March 5th – 6th 2014 in Bandung, Indonesia. The conference will feature distinguished speakers, scientists, engineers, financiers and other key players in the geothermal and energy sector worldwide.

Beside the workshop, this year event will open its door to exhibitors to showcase their projects, equipment, researches and services. We also offer delegates to join in our pre-workshop courses from USC and ITB and post-workshop programs, which includes field trip to Wayang Windu Geothermal Field.

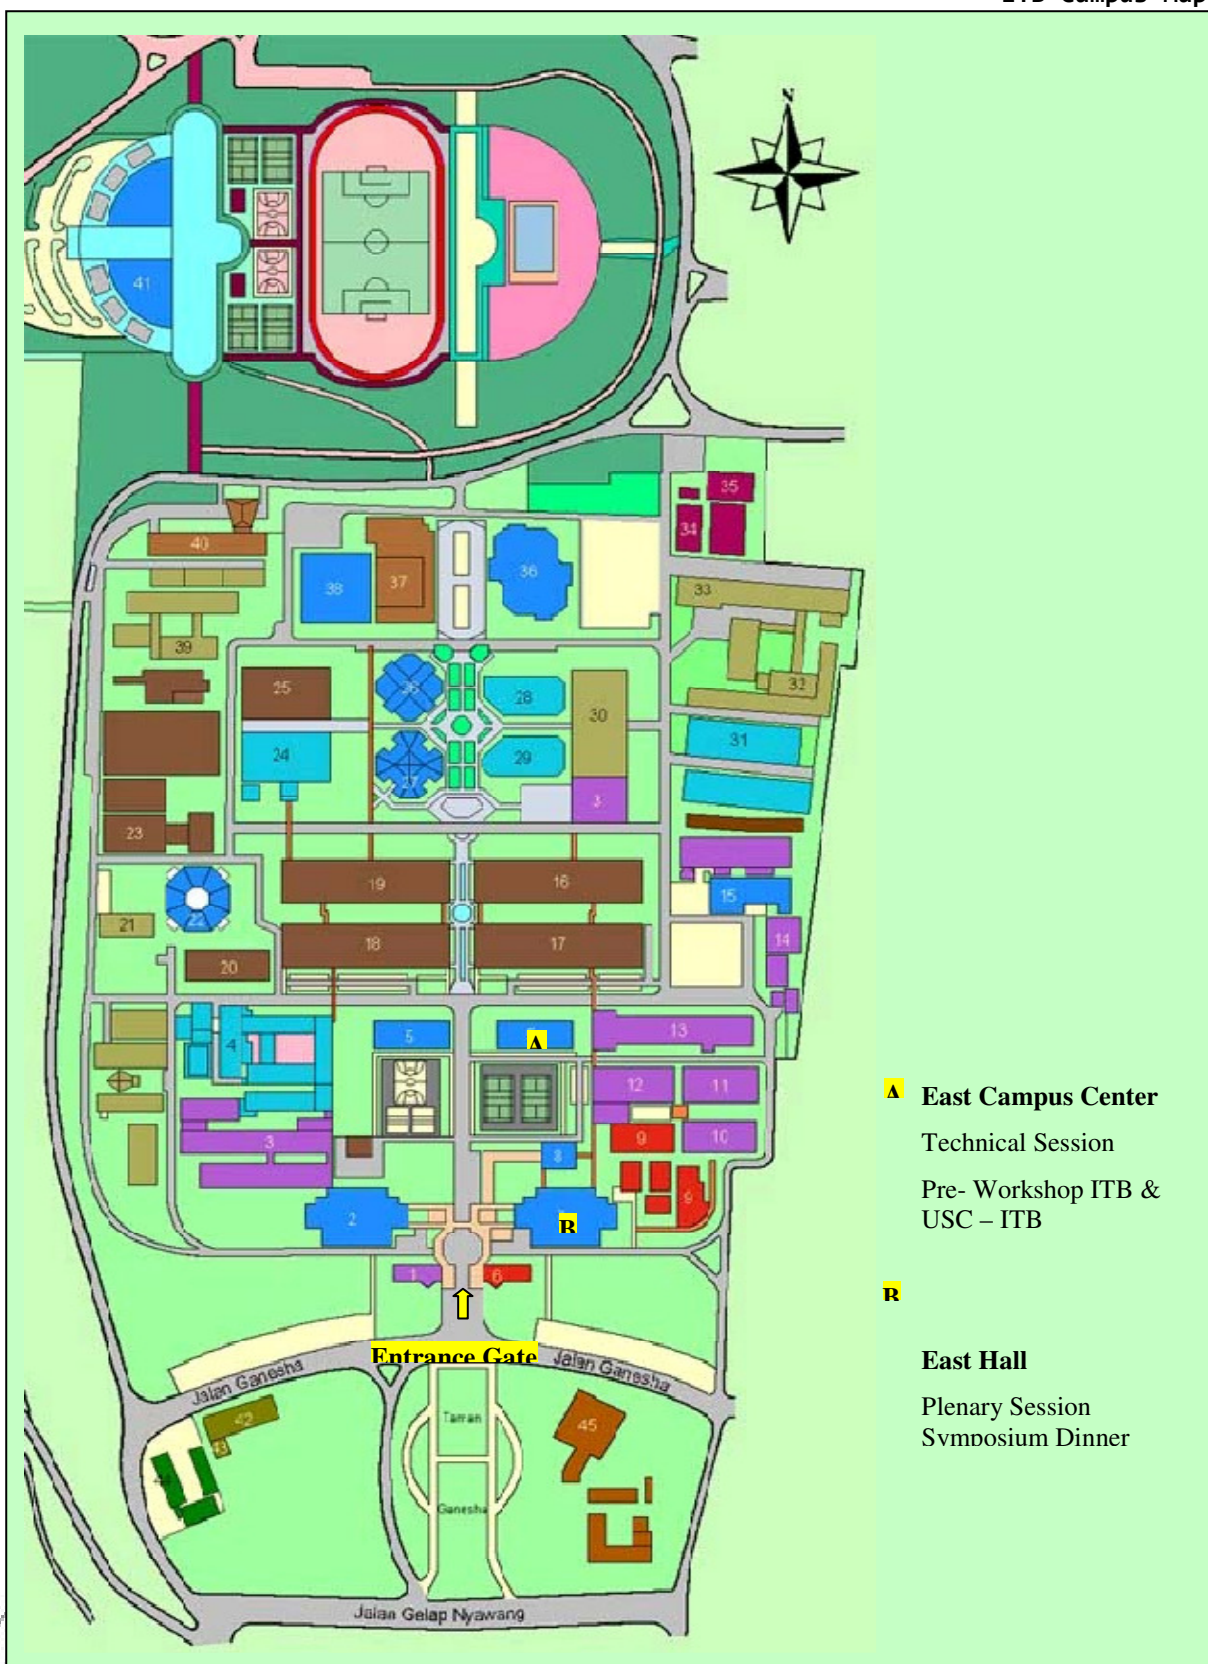

## ORGANIZING AND TECHNICAL COMMITTEE

## PRE-WORKSHOP COURSES

Pre-Workshop Course (USC-ITB)

Monday, March 3<sup>rd</sup> 2014

**Schedule**

- 08:00 – 08:30    **Registration**
- 08:30 – 10:00    ***Introduction to MEQ Method***  
(Rachmat Sule, ITB)
- 10:00 – 10:30    **Coffee / Tea Break**
- 10:30 – 12:00    **Tutorial**  
(Andri Dian Nugraha, ITB)
- 12:00 – 13:30    **Lunch**
- 13:30 – 15:00    ***MEQ Case Study from Indonesia Geothermal Field***  
(Andri D. Nugraha, ITB)
- 15:00 – 15:30    **Coffee/ Tea break**
- 15:30 – 17:00    ***MEQ Case Study from USA Geothermal Field***  
(Danielle Sumy, USC)

Pre-Workshop Course (ITB)

Tuesday, March 4<sup>th</sup> 2014

**Schedule**

- 07:30 – 08:00    **Registration**
- 08:00 – 10:00    ***Geothermal System***  
(Suryantini, ITB)
- 10:00 – 10:15    **Coffee / Tea break**
- 10:15 – 12:15    ***Geothermal Production and Utilization***  
(Nenny Saptadji, ITB)
- 12:15 – 13:15    **Lunch**
- 13:15 – 15:15    ***Environmental Aspects***  
(Ali Ashat, ITB)
- 15:15 – 15:45    **Coffee/ Tea break**
- 15:45 – 17:00    ***Geothermal Economics***  
(Ali Ashat, ITB)

WORKSHOP

**Schedule**

- 08:00 – 09:00    **Registration / Welcome Drink**
- 09:00 – 09:30    **Opening**
- 09:30 – 09:40    **Angklung Performance** by KPA-ITB
- 09:40 – 10:00    **Keynote Speech**  
(Abadi Poernomo, Head of Indonesia Geothermal Association – INAGA)
- 10:00 – 10:20    **Coffee/ Tea Break**
- 10:20 – 10:40    ***Business Strategy for Medium Enthalpy Geothermal System Development, Lesson Learned from Montelago Project, Mindoro, Philippines***  
(Antonie de Wilde, Emerging Power-Philippines)
- 10:40 – 11:00    ***Human Resource Development for Supporting Geothermal Development in PT Pertamina Geothermal Energy***  
(Rony Gunawan, President Director PT Pertamina Geothermal Energy)
- 11:00 – 11:20    ***Innovation for Human Resource Development***  
(Sanusi Satar, Senior Representative Star Energy Geothermal Wayang Windu)
- 11:20 – 11:40    ***University Partnership Program for Encouraging Geothermal Research and Education***  
(Retno Setianingsih, Energy Program Specialist USAID Indonesia)
- 11:40 – 12:00    ***West Java Geothermal Centre of Excellent***  
(Tubagus Nugraha, Department of Energy and Mineral Resources of West Java Province/Dinas ESDM Propinsi Jawa Barat)
- 12:00 – 12:30    **Question and Answer Session**
- 12:30 – 13:30    **Lunch, Exhibition**
- 14:00 – 15:30    **1<sup>st</sup> Technical Session**
- 15:30 – 16:00    **Coffee / Tea Break**
- 16:00 – 18:00    **2<sup>nd</sup> Technical Session**
- 19:00            **Symposium Dinner**

12:00 – 13:30	<b>Lunch, Exhibition</b>
13:30 – 13:50	<b>2<sup>nd</sup> Plenary Session Opening</b>
13:50 – 14:10	<b><i>Build Up Cooperative Education Program Global Human Resource Development in Earth Resources Engineering: School on The Move (ASEAN Japan)</i></b> (Prof. Ryuichi Itoi, Kyushu University)
14:10 – 14:30	<b><i>Education Program Partnership between USC and ITB</i></b> (Danielle Sumy, University of Southern California)
14:30 – 14:50	<b><i>GeoCAP The Netherlands Consortium</i></b> (Jan Diederik van Wees, Geothermal Capacity Building Program)
14:50 – 15:10	<b><i>German-Indonesian Cooperation on Sustainable Geothermal Energy Development</i></b> (Kemal Erbas, GFZ German Research Centre for Geosciences)
15:10 – 15:30	<b><i>Partnership Program at ITB</i></b> (Nenny Saptadji, Institut Teknologi Bandung)
15:30 – 16:00	<b>Question and Answer Session</b>
16:00 – 16:30	<b>Closing</b>

### Power Point File Check-In

For you who have not yet sent us your power point file via email in advance, you will be asked to give your PowerPoint file on first day of workshop (March 5). Please visit the author check-in desk in Campus Center Timur (UG) on March 5.

### Time Allowance

The time allowance for each presentation in Technical Session is 15 minutes followed with a 5 minutes of Questions and Answers Session, which means that the total time you will have is 20 minutes. The speakers will be announced when the time lapse.

Please follow the bell signal:

*First bell: You will have 5 minutes to finish your presentation (10 minutes passed)*

*Second bell: Your time is up (15 minutes passed)*

### Note for the Speakers:

Please be present in the room where you will give presentation 15 minutes before your session starts

### Paper Code

201 : 2 → Room 2 (The paper will be presented in room 2: Gallery of East Campus Center)

**Field Trip**  
**Friday, March 7<sup>th</sup> 2014**

**Schedule**

This year's program provides the opportunity for the participants to visit **Wayang Windu Geothermal Field**. The Wayang Windu Geothermal field and power generation operations are being operated to world class standards by **Star Energy**. The trip will become even more exciting as participants will be given a chance to enjoy the refreshing and pleasant Malabar Tea Plantation in the end of the trip.

**Instructors**

The Field Trip will be guided and instructed by the lectures of the ITB along with Star Energy representatives.
